MTSD Board of Education Implements New System for Board Materials *BoardDocs Allows Easy Public Access to Board Information*

MEQUON, WI. — The Mequon-Thiensville School District Board of Education has implemented a new paperless eGovernance system called BoardDocs. This software allows for easy public access to board information and creates better collaboration among board members.

Effective September 1, the District will use BoardDocs in order to collect and distribute board meeting materials. Community members will be able to access meeting agendas, minutes, and board packets, as well as links to board policies and Board of Education contact information in one online location. Additional information about the Mequon-Thiensville School District Board of Education, including board meeting protocol, the role of the board, board operations and the board engagement schedule can be found in BoardDocs.

“The Mequon-Thiensville School District implemented BoardDocs in order to provide all stakeholders a more user-friendly system while increasing transparency,” said Superintendent Dr. Demond A. Means. “We believe that BoardDocs will maximize the District’s communication with the public by having all board meeting materials in one easy-to-find location.”

Information for the next Mequon-Thiensville School District Board of Education meeting on September 21, 2015 will be posted on the BoardDocs site.
